

## Environmentally Safe Feels Silky Soft

Warm & Safe is made from a remarkable patented fiber that is produced in a GREEN facility. This revolutionary fiber starts out as quick growing plantation trees (not in competition with food supplies). The Warm Company processes the fiber with state of the art needle-punch technology that does not rely on glues & chemicals to hold the fibers together. Warm & Safe features the trademark softness and warmth that quilter's world-wide expect from Warm Company battings.

### Naturally Fire Retardant for Peace of Mind

Warm & Safe is inherently and permanently fire retardant - naturally. By design, the fiber has a high silica content making the fire retardant properties built in from the start. Warm & Safe will not melt, flow or emit toxic gases when exposed to heat and flame. Because the fire retardant is locked into the fiber, there are no PBDE's, the batting is non toxic, non allergenic and, well - Warm & Safe!

#### Warm & Safe Qualities

Permanently Fire Retardant  
No PBDE's  
Eco-Friendly  
Biodegradable  
From Plantation Trees  
Not Competing with Food Supplies  
Non Toxic & Non Allergenic

#### Warm & Safe Calidades

Ig्नirretardante Permanente  
No PBDE's  
Ambientalmente Amigable  
Biodegradable  
Hecho de Arbol de Plantación  
No Competir con Provisiones  
No Tóxico & No Alérgico

#### Warm & Safe Qualités

Permanent Feu Résistant  
No PBDE's  
Respectant l'environnement  
Biodegradable  
Fait D'Arbres de Plantation  
Pas Concurrentes aux  
Ressources Alimentaires  
Non Toxique & Non Allergisant

#### Washing & Care

Pre-wash is not required.

Quilt up to 6" apart. Shrinkage will be 3 - 5% in warm water cool dryer with the first wash.

##### Optional Pre-Wash

- 1) **Hand Wash** in a basin or tub mild detergent. Do not agitate in washer before quilting.
- 2) **Soak** for 20 minutes, rinse.
- 3) **Squeeze** out excess water - do not wring or twist
- 4) **Dry** in warm dryer, or air dry. Your finished quilt will last through a lifetime of gentle washings. Machine wash & dry once quilted.

#### Lave & Cuidado

Prelavado no es necesario.

Una vez que acolchado, mecaniza el lavado & seca. Cosa a 6" aparte. Habrá una 3% - 5% de merma con el primer lavado.

##### Opcional de Prelavado

- 1) **Lave** a mano con detergente ligero. No utilice lavadora.
- 2) **Empape** durante 20 minutos, el aclarado muchos veces.
- 3) **Estrujón** para quitar agua. No tuerza. Arrollar en toallas ayudará.
- 4) **Seque** en un secador tibio. O permite ventilar seco.

#### Se Laver & Soins

Le pré-lavage n'est pas nécessaire. Une fois matelassé, laver et sécher dans la machine. Vous pouvez partir 6" ouvert entre les points cousus. Il rétrécira 3% - 5% la première fois qu'il est lavé.

##### Facultatifs Pré-lavage

- 1) **Laver** par main détergent léger. L'usage de machine pour le pré-lavage n'est pas recommandé.
- 2) **Tremper** pour 20 minutes, rinçage complètement.
- 3) **L'eau de presse hors**. Ne pas tordre.
- 4) **Sécher** par machine. Ou l'air sèche.
