

Terrific Teepees

Designed by Connie Jubitz

Boys and girls will have so much fun in their own teepee! Moms will love it because it sets up in 15 seconds; stores conveniently in a closet or under a bed; and is good for any surface—indoors or out. There are no removable parts to get lost and it is practically indestructible! These easy to sew teepees take \$30-\$40 in materials and a few hours to make. Finished dimensions are 59" height and 58" base width.
